PATENT # 7,850,147

The 3,000 lb Single Track unit uses an exclusive Extruded Double I-Beam track for added stability and load distribution and can handle small watercraft up to 7' beam. Golden Boat Lifts® manufactures the finest aluminum and stainless personal watercraft lifts on the market today.

- Customizable with select accessories
- Versatile enough to accommodate many watercraft
- Perfect for narrow slip applications with small/tight foot print
- Comes supplied with zinc anodes to help prevent electrolysis of the I-Beam Track
