DOCK STABILIZER: AN INNOVATIVE SOLUTION TO KEEP YOUR DOCK SAFE AND STABLE

The patented Golden Dock Stabilizer was designed to eliminate wobbly and unstable floating docks. Floating docks that are too narrow, aging, or improperly supported can sometimes be unsafe and unstable. The Dock Stabilizer has been proven, once installed, to stabilize and level a floating dock greatly. Results on our first installation were way beyond ours and our client's expectations. The Golden Dock Stabilizer is a game-changer and another innovative idea and product designed, patented, and manufactured by Golden.

FEATURES

- 1) Stabilizes floating docks and wave attenuators
- 2) Minimizes heaving and tilting from wave action
- 3) Customizable to any pile size and type
- 4) Multi-level pile guide with rollers spaced at dock level
- 5) Adjustable to assist in leveling the dock
