PORTFOLIO - FLORIDA

Southwest Florida

- Cape Coral Police Department: Situated in Burnt Store Marina lies (2) 4-Post lifts with Cape Coral Fire & Rescue as well as the Fish & Wildlife Commission State Enforcement.
- Punta Gorda Police Department: Brand new (2) 4-post lifts in the beautiful Laishley Park Marina.
- Fort Myers Fire Department: Platform lift, purposely slanted to get in and out quickly.
- Sanibel Police Department: There is only one reason why you should choose Golden over any other lift, we last. Through the most treacherous hurricane in SWFL history, our boat lifts are built to withstand the toughest and most catastrophic storms.
- Other Municipalities: Bradenton, Sarasota, St. Pete, Lee County Sheriff, Bay Harbor Islands and others.

First Responders Depend on Golden Everyday.

PORTFOLIO - FLORIDA

Miami Beach

Golden Boat Lifts has proudly collaborated with the Miami Police Department, one of the largest metropolises in the United States, by earning their trust with our top-notch boat lifts! When the Miami Beach Police Department reached out to us with their boat lift needs, we jumped into action. Working closely with them, we designed the perfect application, culminating in the installation of a 4-Post 2 Motor Boat Lift. But we didn't stop there – we equipped it with Golden's exclusive SEA-Drive®, ensuring faster and more reliable lifting and lowering of their emergency water vessels providing safety in a demanding market.

*New Installation: Miami Beach Fire Department 40k Elevator.

Heroes in Action Trust Golden.

PORTFOLIO - FLORIDA

Key Largo

The National Park Service of Key Largo selected Golden Marine Systems to provide floating docks and boat lifts for the Key Largo station site. Golden delivered their 850 Series aluminum dock system featuring Endeck Coastal Gray decking, 12" GMS adjustable cleats, pile guides, and finger piers. A 4' wide by 20' long gangway was also part of the package. The Golden Boat Lifts supplied four 10K boatlifts complete with remote control and auto stop features, adding another layer of convenience and functionality, making it easier to store and access the boats quickly and safely.

Key Largo National Park Service

PORTFOLIO - NATIONAL

Client: Pulteney Fire NY Client: Texas Navy Base
Product: Low profile 4- Product: (3) Elevator Lifts
post boat lift with
patented Sea Drive.

Client: Mobile Fire
Department, Alabama
Vessel: Steel Shark
Product: 40k 8-post

Client: San Francisco Fire
Department
Product: (2) Custom 3k
Single-Track Elevators
with platforms and
aluminum bunks

Other municipalities: Virginia Beach Naval Base and more

PORTFOLIO - GLOBAL

Client: Aruba Police Department
Brief: We built a 4-post lift for the Aruba Police Department over ten years ago and it is still going strong and in use today, looking brand new.

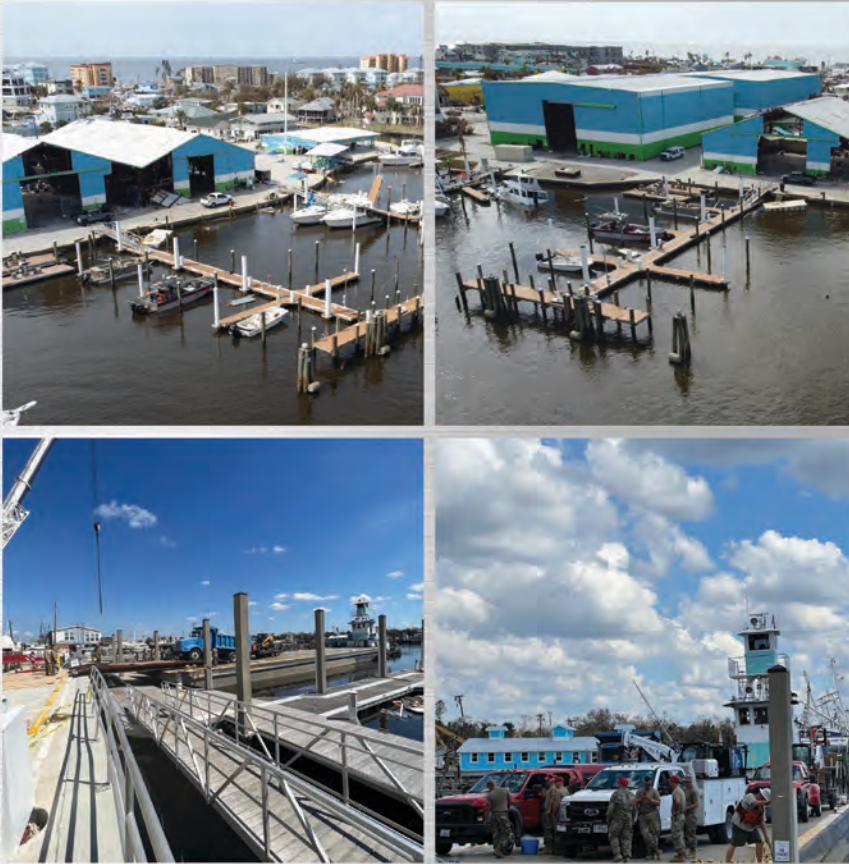

Client: Malaysian Police Department
Product: (2) 2-motor profile lifts

Client: Republic of Panama.
Brief: Due to the extreme water rise in the lock, the Elevator Lifts travel 30'-double what is typically needed. Because of this, everything about the project is oversized and overbuilt.

Client: Sweden Sea Rescue
Product: Flat plate drive elevator

HURRICANE IAN AFTERMATH

FEMA

Hurricane Ian put us all to the test. And when it tested the mettle of our many marinas and docks on Fort Myers Beach and San Carlos Island, Golden Docks lived up to our name, riding the storm out when others failed to. Even better, our docks gave emergency marine patrol teams and other first responders precious and dependable dock space to tie their various vessels to. This allowed them to be more effective in the daunting tasks of rescue, cleanup and restoration.

When the Others Failed, Ours Stayed.

“We far outlive our warranties, but we want you to have a product that is never going to have a problem. The only way to do it is to truly overbuild.”

BILL GOLDEN · CEO, OWNER

COMPETITIVE ADVANTAGE

GOLDEN BOAT LIFTS

WARRANTY

- 15-year warranty on structure
- 10-year warranty on Sea-Drive Gear Box
- 2-year Bumper-to-Bumper warranty

ISO CERTIFIED

Ability to consistently provide products and services that meet customer and applicable statutory and regulatory requirements.

DRIVE UNIT

- Sea-Drive: Double Reduction Worm Gear. Packed with synthetic grease so there is no oil to leak, no chains to break, and no service ever needed.
- 8,000 Inch Pounds of Torque at 1 HP input.
- All hardware is 300 series stainless steel Heavy duty injected die-cast aluminum housing
- Over 15 years without failure

CABLE & WINDER ASSEMBLY

- Patent Cable Tie Off Bolt & Anti-Shear cable guard
- 3.5" dia. & large cable spool
- Certified stainless steel cables

PATENTS

- Sea-Drive Patent # 7,850,147: 8,000 Inch Pounds of Torque at 1 HP input, Self-Braking Worm Gear
- Cable Tie Off Bolt Patent # 6,719,241: Ensures that your cable is safely attached to the winder
- Anti-shear cable guard Patent # 10,189,685: Ensures your cable will not run off the winder when it is at its last groove and eliminates shear between the winder & bearing

COMPETITORS

- 10-year warranty on structure
- 2-5 year warranty on gear box
- 1-2 years on all other components

No other boat lift manufacturer is ISO Certified.

- Direct Drive: Require electric brakes with heavy loads
- G3: New to industry/ Has not lived its warranty
- G6: New to industry/ Has not lived its warranty
- H2: Motor in vertical position, allowing water into the upper motor bearing
- Chain Drive: Motor in vertical position, allowing water into the upper motor bearing

- Cable tie off bolt: not available
- Anti-shear guard: not available
- 2.375"-3.5" dia. cable spool
- Unknown material

- No Self-Braking gears 4000+/- Torque

- No Patented Cable Tie Off Bolt or infringe on our patent. Feed cable through shaft

- No Patented Anti-Shear Guard Cable will shear and drop boat if cable runs off spool

COMPETITIVE ADVANTAGE - QUICK SHEET

GOLDEN BOAT LIFTS

COMPETITORS

ALUMINUM PLATES

- 50% thicker than the industry standard. 3/8" plate

- Industry Standard. 1/4" plate.

WINDERS

- Solid aluminum winder

- Pipe sleeve over a galvanized shaft.

HARDWARE

- 3/16 stainless steel bolt

- Kotter key

LIMIT SWITCH

- Patented limit switch cover

- No limit switch cover, making it susceptible to the rigorous weather.

POSITION OF MOTORS

- Horizontal stainless steel motor. Two weep holes. Water drains out. Doesn't affect any components.

- Vertical. Water will sit on the top bearing and get down in the centrifugal switch, which wears out quicker and making noises.

PULLEY SYSTEM

- Leaded bronze bushing with grease fitting. Lead in there for lubricity and bronze in there for hardness.

- Powder bushing or oil light bushing which tends to squish out over time.

AXLE BOATS

- 1"

- 3/4"

CLIENT TESTIMONIAL

Golden Boat Lifts has been a game-changer for our marine unit. I had these lifts for at least 7-10 years and their lifts prior. We need dependability. When we need them to work, they work. We can never take that chance of them not working that is why we have always been a Golden customer. They work as they should. We have never had an issue. We are redoing the building and combining police and fire departments. The Golden Elevator Lift will be the only lift we use for our new 40ft fire cabin boat.
